

JOHN FOSTER DULLES PAPERS
JFD CHRONOLOGICAL SERIES

The JFD Chronological Series consists of approximately 13,600 pages of correspondence, memoranda, memoranda of conversations and memoranda of telephone conversations. The bulk of this material consists of copies of outgoing correspondence signed by Dulles and sent to recipients within the federal government, individuals in private life and some foreign government officials. It is supplemented by memoranda of Secretary Dulles' conversations with various officials within the executive branch of government, congressmen, foreign government officials and private individuals. Incoming letters to Dulles are rarely found within this series. This documentation ranges from routine brief acknowledgement letters to substantive letters and memoranda reflecting Dulles' views on policy matters. The subject matter is also varied and references to a great many issues of concern to Secretary Dulles can be found within this series. Much diligent searching is needed, however, to ferret out such items amidst the routine correspondence. Much of this material is, in all likelihood, duplicated elsewhere within the Dulles Papers although several items not readily located elsewhere in our holdings can be found here. The series spans the years from December 1952 through May 1959.

As its name indicates, the series is arranged chronologically from 1952 to 1959 and within each file folder, in reverse chronological order. As of May 2001 about 50 pages remain security classified and a few pages are also closed in accordance with the donor's deed of gift.
