

SEATON, FRED A.: Papers  
Memorabilia and Print Materials Series

Scope and Content Note

The Memorabilia and Print Materials series consists of approximately 10,000 pages of material dating from 1934-1976. The series includes reports, publications and newspaper clippings from Seaton's political career and years as Assistant Secretary of Defense and Secretary of the Interior; and items from the post-administration period. The material was placed in folders with titles devised by a staff archivist. The folders are arranged roughly in chronological order in accordance with Seaton's career. Oversized items are arranged out of sequence for more appropriate housing and the group of publications relating to wildlife and conservation are also housed out of sequence toward the end of the series.

Additional items were transferred to the museum, book collection and audiovisual department. These transferred items are listed at the end of this series.
