Dear Dr. Harnwell:

Through a letter to my son from Dr. Irwin H. Breslow of the Graduate Hospital, University of Pennsylvania, I have learned something of the efforts of the Graduate School of Medicine in behalf of foreign medical students as a part of the People-to-People program. In particular, I am interested to learn that you plan to establish the first foreign medical library with audio facilities in the United States as an aid to students whose limited command of English might place them at a disadvantage in the lecture room.

x07111-7

I was delighted to hear of the scope of your overall program. With the public spirited help of citizens of the Philadelphia community, it represents a concerted effort of free individuals, mutually joined, to meet a challenge of national significance.

Please give my greetings to those who will be assembled at your meeting on Thursday, March thirty-first.

Sincerely,

DWIGHT D. EISENHOWER

Dr. Gaylord P. Harnwell
